Summary

Full-Stack Software Engineer with 2+ years of experience designing, building, and shipping scalable web applications end to end. Strong foundation in data structures, algorithms, and system design, with hands-on experience across React.js, Node.js, REST APIs, and SQL databases. Actively building depth in Python, Data Science, and Machine Learning through rigorous, certification-backed coursework (Kaggle, IBM). Track record of leading technical initiatives, collaborating cross-functionally, and delivering measurable results under real client and academic deadlines. Seeking a Software Engineer role at Google to apply strong engineering fundamentals to problems at scale.

Technical Skills

Languages: Python, JavaScript, HTML/CSS, SQL
Full-Stack Development: React.js, Node.js, REST API Design & Integration, Frontend/Backend Architecture, UI/UX
Data & AI/ML: Data Analytics, Data Visualization, Feature Engineering, Pandas, Machine Learning Fundamentals
Tools & Platforms: Git/GitHub, Model Context Protocol (MCP), Database Management, CI/CD Fundamentals
Core CS: Data Structures & Algorithms, System Design Fundamentals, Agile/Project Management
Other: Robotics & IoT (Arduino IDE), Cybersecurity Fundamentals

Experience

College Representative Feb 2026 – Present
Code for Change Kathmandu, Nepal

- Represent the organization at Tribhuvan University (IOST), driving awareness of technology-for-social-good initiatives among 100+ students.
- Coordinate cross-functional projects and workshops bridging technical skill-building with real-world community impact.
- Facilitate communication between student developers and stakeholders, improving delivery timelines.

Full-Stack Developer (Freelance) Mar 2024 – Present
Upwork & Independent Projects Kathmandu, Nepal

- Designed and developed full-stack web applications using React.js and Node.js, ensuring scalability and optimal user experience.
- Architected and integrated RESTful APIs, enabling seamless data flow between frontend and backend systems.
- Owned complete project lifecycle from requirements gathering and system design to deployment and post-launch iteration.
- Collaborated directly with clients to deliver solutions on time and within scope, earning repeat business.

Projects

Full-Stack Web Applications — *JavaScript, React, Node.js, REST APIs* 2024 – Present

- Designed and deployed multiple end-to-end web applications, owning the full development lifecycle from requirements to production.
- Integrated third-party REST APIs and built custom backend services, improving response times and maintainability.

Data Analytics Pipeline — *Python, SQL, Data Science* 2025

- Built an end-to-end data pipeline using Python and SQL to extract, clean, and visualize structured datasets, applying advanced SQL techniques (window functions, CTEs) validated by HackerRank Advanced SQL Certification.

Education

Institute of Science and Technology (IOST), Tribhuvan University Dec 2025 – Dec 2030
Bachelor of Science, Computer Science and Information Technology (B.Sc. CSIT) Kathmandu, Nepal

National School of Sciences Sep 2021 – Apr 2025
Higher Secondary Education, Computer Science Kathmandu, Nepal

Certifications & Achievements

- **1st Place** – CodeCraft: School Coding Challenge, National School of Sciences (Feb 2025)
- HackerRank Certified Software Engineer – Role Certification (Jul 2026)
- HackerRank SQL (Advanced) – Skill Certification (Dec 2025)
- Anthropic: Model Context Protocol (MCP) – Advanced Topics (Apr 2026)
- Anthropic: Claude 101 (Apr 2026)
- IBM SkillsBuild: Artificial Intelligence Fundamentals (Apr 2026)
- Kaggle: Data Visualization, Feature Engineering, Pandas, Python (Nov 2025 – Jan 2026)
- 7 Days Robotics Training, National School of Sciences & Engineers Vlogs
- Project Management Fundamentals
- Career Development Session, Code for Change Kathmandu & TechAxis
